ICAR-CIARI licenses 'Dweep HanGreens' for promotion of urban horticulture in Islands

Port Blair, Sept. 22

ICAR-CIARI, Port Blair has recently developed the technology 'Dweep HanGreens' to promote urban horticulture in the Islands. For making the technology available to the Island stakeholders, the technology was licensed by signing a Memorandum of Understanding on Sept.18, 2021. At an event organized by CIARI, Dr. E.B. Chakurkar, Director, ICAR-CIARI transferred the technology to Shri Nishant Naskar, an island entrepreneur from Swaraj Dweep.

Dweep HanGreens is a compact model for cultivation of Burmese coriander in urban areas. Being a hanging model, it occupies limited space and could be hung in the balconies, terraces, rooftops etc. It provides herbal produce for daily consumption

apart from giving aesthetic appeal to the area. This technology has been developed by Dr. Ajit Arun Waman and Dr. Pooja Bohra, Scientist of Division of Horticulture and Forestry of ICAR-CIARI, a press release from CIARI said.
