## Exposure visit on technological intervention for SHG's

### ■ Trip to Regional Station, ICAR- CIARI, Minicoy, Lakshadweep

PORT BLAIR, APRIL 1/--/ Based on the request of the community resource person of the SHG's groups an exposure visit on technological intervention for

SHG's at Regional Station, ICAR- CIARI, Minicoy, Lakshadweep" was conducted on 24th March 2022, for the members hailing from 11 villages. At the outset feedback

was taken on the visit to RS Minicoy. thereafter the groups were informed on the technological options namely mini-incubator, coconut varieties, GMP in coconut,

fodder, chilly, drumstick cultivation under coconut as intercrop.

The highlight of the programme was a practical demonstration on coconut climbing device which was later used by two active women for climbing the coconut tree. They were also exposed to Laccadive mini micro coconut trees and its nuts. In the concluding remarks the group were sensitized to start a start-up on fish mart as there is no centralized fish selling outlet at Minicoy. A total of 32 women participated.

The scientific team comprising Dr. S.K Zamir Ahmed, Dr. A.K.O Ratheesh, Dr. Gladston Y. and Mrs. Ajina S.M., along with Mr. Shareefuddeen Hassan (T3) conducted the programme as convenors under the Chairmanship of Dr. E. B. Chakurkar, Director ICAR- CIARI
