ICAR-CIARI invites stakeholders for participation in training prog on Spices

PORT BLAIR, AUG 22/--/ Spices are the high value horticultural crops, which play a major role in the economy of the islands. A variety of spices are being cultivated in different parts of the islands. However, due to lack of awareness on scientific techniques of cultivation and postharvest management, most of the stakeholders have been unable to reap maximum benefits from the cultivation of spices. In order to provide the requisite technical knowhow, ICAR-Central Island Agricultural Research Institute, Port Blair is going to conduct a three days training programme on "Scientific Cultivation and postharvest handling of Spices under Island Conditions for Better Profits" from August 29 to 31, 2022.

The programme would include theory and practical sessions on propagation, cultivation and postharvest management of spice crops besides demonstration of spices and plantation crops based cropping systems. Interested participants may indicate their interest by providing information such as name, age, education, profession and contact details by contacting the Training Coordinator Dr. AjitArunWaman, Scientist, ICAR-CIARI through call or WhatsApp message on 9933263441 latest by August 25, 2022. The selection of participants would be done after scrutiny as the number of participants is restricted to 25. Selected participants will have to pay a registration fee of Rs. 100/- only for attending the programme.
