CIARI conducts hands on training & distribution of inputs to augment production & management of livestock in Little Andaman

Port Blair, Dec. 20

A three-days training programme titled 'Training-cum-Field Day on Scientific Livestock Management' was organized by ICAR-Central Island Agricultural Research Institute at Harminder Bay village, Little Andaman recently. The training was organized by the Scientists of Division of Animal Science of ICAR-CIARI viz. Dr. K. Muniswamy, Dr. P. Perumal, Dr. Arun Kumar De and Dr. P.A. Bala along with Dr. Ashish Kumar, Senior Veterinary Officer, Department of Animal Husbandry & Veterinary Services, Hut Bay.

A total of 80 tribal farmers rearing different livestock species participated in the training. Captain, Shri Andrew Mosses

and the Secretary, Shri Festus of Harminder Bay graced the occasion. They translated the gist of the programme in their native language and encouraged the participants to interact with the Scientists. Dr. A. K. De and Dr. P. Perumal explained about scientific management of pigs and bovines while Dr. K. Muniswamy explained about the scientific rearing of backyard chicken farming. A visit to the farmer's field and collection of biological samples was held later in the day. Dr. P.A. Bala deliberated on

strategies to feed different livestock with local feed ingredients while Dr. P. Perumal explained about sustainable goat farming.

A demonstration on deworming procedure for various livestock species with anthelmintics was also done. The training programme concluded with distribution of inputs like pig feed (concentrate mixture), feed supplements and health tonics after explaining them about the use of these inputs, a press release from CIARI said.
